## 2801

A cost-effective solution that meets basic single line telephone needs. This model features a data port, message wait lamp, flash button, redial button, adjustable handset volume button and off/high/low ringer adjustment.

The ideal choice for satisfying today's business requirement for one and two line telephones is Vodavi's **STARPLUS** 2800 Series Telephones. Technically advanced with a stylish compact design, one of the three **STARPLUS** 2800 Series models is sure to fit your business application. Whether you are a hotel, resort, business office, university, government agency, etc., you will quickly recognize the added convenience provided by this cost-effective solution.

## All the Features You Need

All three 2800 models are FCC registered, and both hearing aid and American Disability Act (ADA) compliant. Standard features include a handset volume button, data jack, message waiting light, redial button, flash button and ringer control.

A right side data port connects to the telephone line for modem or fax machine use.

Highly visible red message wait lamp.

The 2802 and 2803 models offer the flexibility to program 10 buttons for one-touch access.

## 2802

The 2802 offers all standard phone features of the 2801 plus value added features such as speakerphone with mute capability, speaker volume control, hold button and 10 programmable flexible buttons.

Best of all, the **STARPLUS** 2800 phones come backed by a 5 year standard manufacturer's warranty. Quite simply, the best in the industry.

### Compatibility, Flexibility Are Key

Do you expect future growth in your business that would require adding additional one or two line telephones?

Does your business own a mix of communication systems? Do you expect to move phones around? If so, rest assured. Vodavi makes any of these scenarios a snap because **STARPLUS** 2800 Series' open platform makes them compatible with nearly any PBX, key telephone system, or Centrex service. Also, all **STARPLUS** 2800 phones are easy to install and maintain. That's one less thing to worry about.

The **STARPLUS** 2800 Series... the affordable one and two line telephone solution!

## 2803

The 2803 is a two line speakerphone for guest rooms. It is ADA compatible and includes a data port, message wait lamp, 10 programmable guest service buttons, a hidden programmable feature button and high/low ringer button that can't be turned off accidentally.

### Special Features for the Hospitality Industry

The **STARPLUS** 2803 Telephone is designed specially for today's hotel, motel, and resort applications. Your guests will appreciate the added convenience and simplicity provided by this Vodavi phone. This model includes a highly visible red message wait lamp to alert guests of voice messages and an easy to access data port for computer connectivity. The two line functionality of the 2803 model provides the added ability to simultaneously send and receive voice and data calls.

Unique features only found on the Vodavi's hospitality model consist of:

- **Hidden programming button** located under the overlay which reduces guest access to reprogramming
- **High/low ringer switch** that eliminates the ability to permanently turn off the phone's ringer
- **Special battery** for prolonged pre-installation memory retention

*High/Low Ringer switch*

*Eliminate the potential of guests turning off the phone with the High/Low Ringer switch.*
